HENDERSON TO BREAK GROUND ON HISTORIC BOULDER HIGHWAY CONSTRUCTION

Reimagine Boulder Highway will bring vast safety improvements to valley's oldest roadway

WHAT: On Aug. 5, Henderson Mayor and City Council, City leadership, and other dignitaries will break ground on Reimagine Boulder Highway.

This 7.5-mile construction project, designed with the community's help, will bring several vital roadway improvements, bettering the surrounding area and creating positive change for residents and businesses along the corridor.

The overall goals of Reimagine Boulder Highway include:

- Increase corridor safety for all users
- Support multi-modal transportation options
- Spur development along the corridor
- Conservation

To ensure safety is improved along the corridor, the following enhancements are planned:

- Improvements include center-running transit lanes with enhanced passenger shelters
- Upgraded storm drain system
- New traffic signals
- Improved lighting
- Elevated buffered bike lanes

Boulder Highway was identified as a rapid transit corridor in 2002 and planning for the project began in 2006. The designs for Boulder Highway incorporated feedback from the public. Surveys in 2020 showed that 79% of the public agreed with the overall project concept.
